"PLEASE NOTE: This session has been created to provide general education regarding the AICP Code of Ethics. Though examples, sample problems, and question and answer sessions are an important part of illustrating application of the code’s provisions, all certified planners should be aware that only the Ethics Officer [– that’s me!] is authorized to give informal advice on the propriety of a planner’s proposed conduct and only the Ethics Committee can give a formal opinion (AICP Code of Ethics, Section C1). If you have a specific question regarding a situation arising in your practice, you are encouraged to seek the opinion of the Ethics Officer." - James Peters, FAICP

Let’s Talk – Some Motivating Questions

How do our own identities affect our work?
What do we mean when we talk about privilege, diversity, equity and inclusion?
UBC Social Identities Worksheet

Please complete the Social Identities Worksheet individually
Access at: http://timeandplace.ubc.ca/files/2014/06/Appendix-2.pdf

Please discuss with one or two people you trust who may be different on one or more identities than you:

Considering all your social identities listed in the table above, on a daily basis, which ones are you most aware or conscious of? You can pick more than one domain if you want.

a) Most aware/conscious of:
  b) What do you appreciate about or gain from that identity?
  c) What is the most negative or difficult thing about that identity?

2. Considering all your social identities listed in the table above, on a daily basis, which ones are you least aware or conscious of? You can pick more than one domain if you want.

a) Least aware/conscious of:
  b) What do you appreciate about or gain from that identity?
  c) What is the most negative or difficult thing about that identity?

3. What stood out most to you in this exercise? Why?

4. What would you like to know more about or explore further?

B. Heard of it, but not sure what it means.
C. Familiar
D. Very familiar and use it in my planning work.

*noun*

the interconnected nature of social categorizations such as race, class, and gender as they apply to a given individual or group, regarded as creating overlapping and interdependent systems of discrimination or disadvantage.

"through an awareness of intersectionality, we can better acknowledge and ground the differences among us"
Other Exercises for Enhancing Self-Awareness

Privilege Walk – Watch video online (Youtube has some) and discuss:
- How does watching it make you feel?
- How might participating make you feel?
- Can you imagine how it might feel for your coworkers or clients/public you work with?

Implicit Bias Tests:
https://implicit.harvard.edu/implicit/takeatest.html

Walk through a neighborhood, especially one where you are not the majority identity?
- Pay attention to your thoughts and feelings?
- Do you feel comfortable? Uncomfortable? How?
- Do you have any thoughts or feelings you might rather not have?
- Perhaps even journal about your feelings and look back a week or two later?

When have we seen struggles (or successes) around privilege, diversity, equity, and inclusion in our work?

What is a planner's role in resolving these struggles?
Four pillars/insights:

1. **Power**: Even in egalitarian, democratic societies, power needs to be named, challenged, and equalized to create greater fairness between racial groups.

2. **Tribes**: We have greater empathy – more care and concern – for those who are most like ourselves.
Four pillars/insights:

3. **Biases**: As humans, we all have biases we are not aware of that play out on a daily basis.

4. **Emotions**: How we feel directly influences how we act.
Golden Rule: Do unto others as you’d have them do to you.

Platinum Rule: Treat others the way they want to be treated.

“This is not a sprint, but an ultra-marathon, spanning generations.”
A. Principles to Which We Aspire

1. Our Overall Responsibility to the Public
2. Our Responsibility to Our Clients and Employers
3. Our Responsibility to Our Profession and Colleagues

Rank prevalence of four pillars (Emotions, Biases, Tribes and Power) for each of three sections

Discussion:
• What gaps?
• What might explain the gaps?
• How might we improve the Aspirational Principles?

D. I’m very aware of self care and pay attention to when emotions are taking a negative toll on me.

What do you think about emotions in our work?
Results
How have you learned to manage your emotions at work?
